Thousands who have made use of this great resurdy believe it is far superior to any preparation now known for the cure of Consumption. Coughs and Colds, Ashbun, Broachtils, Spitting of Blood Pain and Soreness of the Breast, Hoarseness, Hooping Cough, Croup, Puthiste, etc. Some of the cures effected by this medicine are of a most superising and wonderful character; cases that have been given up by eminent physiciams as incurable for many years. One case is that of a respectable physiciam, who was pronounced incurable by seven physiciam. I wo cases are of twenty years' standing. None therefore, however long they have been afflicted should desput until they have given this great remedy a trial. We believe in common coughs and colds, it is almost if not quite, hisfa like; and in mine teen cases out of twenty, selected day groups and incurable, it will effect a cure. It may be taken with perfect safety by persons of the most of loste coustington. It is purely regetable, and is a pleasant, healthy, and invigorating touts.

Remarkable Case of Hereditary Consumption. This certifies that my wife was affilted about eight months with every symptom of consumption. She spit a great deal of blood, and had an aim at incessant cough. We had no expectation of her recovery, as her father and three staters had died with consumption, and her disease was evidently Limitar to theirs. After she had been confined to her bed about four weeks, constantly failing, she commenced using St. John's Cough and Consumption Syrup. This very soon cured her cough, and restored her to perfect health which she has enjoyed with little interruption new nearly six years. It also soon relieved me o' a deeply-seated, dangerous e ugh and spitting of blood.

Duar Sur: My wife had been afflicted five years with a cough, and last fall she lay in bed, not expected to live. She had used Jayne's Expectorant, Liversort and Tar and Cod Liver Oil. Her physician could do nothing more for her. She then commenced taking your Cough and Consumption Syrup and after using five batters was able to do her work again. I have also given it to other members of my family for severe coughs and colds. Its effects have been such that I have concluded it is the best medicine now in use. My grandson was afflicted with a disease of the lungs, for which the ductors could do nothing. One bottle of your Syrup has also cured him. A blacksmith in this place was afflicted in the same way, so as to be unable to work. One bottle of the Syrup basefited him so much that he is at work again. I have no doubt another bottle will perfect the cure. I would recommend those who are similarly afflicted to less no time in giving this medicine a trial.

His physician and friends believed that he could never tecover, and must soon die. Through the instrumentality of this Syrup he has been restored to the enjoyment of good health. A son of Martin Les. Esq., of that vacinity, was afflicted with Lung F. ver, which left him with a daugerous cough that buffled the skill of their physicians. He took this Syrup, and was goon restored to his a coustoned health.

Infant Cured.—When my child was a few weeks old. It took a severe cold, which settled upon its lungs. The sough continued about a year, the child having, in the mean time, the hooping cough. We gave it a great variety of medicines, none of which were of any apparent benefit. I was fin ily induced, from the strong recommendation of several of my friends, to try St. John's Ocogh and Consumption Syrup, which very so m effected a core.

"St. John's Cough and Consumption Syrup," says ite Sandusky Democrat. "Is an excellent remedy for cough and colds: in fact, we do not know its equal. Numerous eases have come under our observation, in which the patient, apparently sinking under consumption, has been restored to health by its use. We have used it with great success in our own family."

Six bottles cured Dr. Stoffer, a respectable old school physician, of Oregon, Ohio. He was some months confined to his bed with a disease of the lungs. Seven physicians visited him, and agreed in the belief that he could not recover.
